

#102 Color and Value Class for Amazing Quilts Grace Errea

Supply List:

Grace will provide (kit fee: \$5.00):

- Fabric for the perfect 8-Value Gray Scale to start the Periodic Table
- Grace's Periodic Table of Value and Color Reference Chart

Students will provide:

- Poster board, approx. 20" x 22"
- Glue stick or clear fabric safe glue/basting glue
- Paper and fabric scissors
- Pens, pencils
- Rotary cutter and board and 24" ruler
- Array of fabrics (small scraps). All colors (yellow, red, blue, violet, green orange), and many values and textures. Fabrics should be 'tone-on-tone' (has a pattern or design which is the same color than the background fabric but darker or lighter and is "seen" as one color). Do not bring scraps with obvious prints or designs, such as florals, checks, etc. These will not work for this class.
Scraps of approx. 1-2" by 2-3" are all you need. The key is to have all the possible VALUES (variation from very light to very dark) that you can. These will be used to create the 8-Value scale for each color as shown in Grace's Periodic Table of Value and Color.

Include scraps or Black & White fabric. This is the only time that distinct designs can be used. The variation here is in the amount of black or white present. So bring as much as you can.

You may not have all the values in all the colors yourself but if you bring what you can, to share with others, they will share with you.

Grace will provide the perfect fabrics for the 8-Value Gray Scale to start your Periodic Table.

- Color wheel (small is OK)
